Mounting Holes

Defined on PCB Directly

Note: These holes are used for attaching a lanyard they're not to be plated.

Board Shape

BOARD:

Less than overall:
100 x 100mm

Thickness: 1.6mm

SHEET:	2 OF 5	DRAWING NO: BSIDE-BADGE-2025	

3.3V REGULATION

Note: PCB Connector created using PCB edge and copper. No physical part.
The PCB thickness may not be enough for this feature. Tape may be required on backside.

Note: 1K8 provides the computer with a means to detect it has been plugged in.

BATTERY SOURCE

5.0V REGULATION
